ED-BD CELEBRATIONS TURN DEADLY

Earthday-Birthday #20 had a record turnout for both revelers and bands. The atmosphere started out innocently enough.

There were body painting booths, Food Wagons and a general party atmosphere where everyone was enjoying their selves. With three separate stages set up for the bands use, people were drifting from one stage to another as they followed their favorite bands.

There was a police presence to insure the safety of the crowd as well as safety signs everywhere indicating that there was “No Moshing” allowed.

And for the first four hours, everyone was having fun

and things were flowing smoothly and safely.

But then the last minute band addition, Steeple of Steel” took Stage 1 and the atmosphere started to change.

At first it was just a few rebel attendees ignoring the “No Moshing” signs. But it swiftly turned into a riot that soon involved the entire field of Stage 1.

It wasn’t long before the fields of Stage 2 and Stage 3 also started rioting.

There weren’t enough police and security forces to deal with the riots and several of them were killed.

Survivors of the even say that the crowd just went

crazy and started destroying anything they could touch.

Injury reports are still rolling in so the full extent of the damage is unknown. But S.W.A.T. was called in to shut down the event and evacuate those who were still able to walk.

There were several celebrities, other than the bands, who were attending the event, as well as our Civic Leaders. We do know that not all of them were able to walk under there own power during the evacuation and some were even killed during the riots. Their names are being withheld at this time.

THE CITY BEAUTIFUL BLEMISHED BY RAMPANT DRUG USE

The fight to clean our streets up of drug dealers and users is still ongoing.

Both State Police Chief Gilupkin and Mayor Wooten have issued statements stating that they are working on cleaning up our streets and making them safe again.

Yet the problems seem to be getting worse everyday.

Meth use is at an all time high and reports are coming in saying a new street gang is to blame.

“The Garcias,” a drug running gang thought to be run by someone only known by the name “Ramon.”

By the reports, they are responsible for the introduction of this new line of meth, called “Purple Croc,” that is devastating our youth and our streets.

Vandalization of GE Plant could cost Millions in Repairs.

GE PLANT VANDALIZATION CONNECTED TO LAKE EOLA POISONING

Plant security at GE has been increased after a break-in last week.

The vandals ran amok in the facility leaving chaos and destruction in their wake, causing the blackouts we experienced last week.

The full extent of the damage though was not determined until recently.

There are many dangerous chemicals stored on the site and it is believed that these chemicals were the

real reason for the burglary and that the destruction was meant as a distraction.

A large amount of Dibutyl Phthalate was stolen.

It is believed that the vandals who stole this are the same ones who poisoned Lake Eola.

Authorities yesterday were summoned to Lake Eola with reports of lots of dead fish on the shores. What they found when they arrived was that the fish population in the lake had been

devastated.

Upon testing the water, they found a high concentration of Dibutyl Phthalate.

This follows on the tragic story of the Baby Swan Thefts. The swans of Lake Eola are still in mourning for their stolen hatchlings.

Awards have been offered for information that leads to the arrest of the vandals who poisoned the lake and/or the thieves who stole the cygnets.

“Sprechen sie Deutsch?”

Well, with a new program at UCF, you can do more than that!

UCF GETS GRANT FOR GERMANIC STUDIES

The World Cultures Department in UCF received a two million dollar grant to promote Germanic studies.

The donation came in anonymously but with specifications for use specifically with the Germanic department.

With the addition of the newly opened German Cultural Center will open new avenues in the department.

To date, the Germanic Studies course was very basic and done mostly as an elective credit.

Now, there are plans to

expand the department and expand the course to allow for a new graduate program.

With the expansion will come new scholarship opportunities.

Anyone wishing for more information on this program should contact UCF.

BLUE NOVEMBER CONCERT HIDES TERRIBLE SECRET

Last weeks’ concert was a hit, according to the majority of attendees. But for the group of backstage pass winners, the night did not end as expected.

Rather than getting to meet the band to get pictures and autographs, 38 people disappeared. The band

members were not even aware of the contest for the backstage passes and swore they did not meet anyone after the concert.

After extensive questioning of the backstage crew, it was determined that the stage manager for the show was a plant for a human

trafficking ring.

Investigations into the missing people are underway.

Human trafficking has been a problem all over the world, but this is the first time we have found it in the City Beautiful.

Rock Band Concert turns sour with discovery of Human Traffic Ring.

SEARCH CONTINUES FOR ELIZA VITALE

The daughter of Joseph Vitale, CEO of the Vitale Group, went missing on the day of the Earthday-Birthday tragedy.

She was attending the event with a group of friends. Her last communication with her family was a selfie she texted which showed herself, surrounded by her friends at Stage 3. That was just before the riots started.

During the riots, the friends stuck together as best they could to get out of the park, but had to split up when the rioting got worse.

Eliza and two of her friends went one way, while the rest

went another. It was after this separation that Eliza disappeared.

Her best friend Viki, said that a man accosted their group and Eliza tried to stand up to him.

“They were screaming at each other. He wanted her to go with him and she refused,” Viki was reported saying.

She also said the man disappeared into the crowd and she didn’t see him again. But when they had traveled a few more feet, she turned to grab Eliza’s hand and found she was gone.

She was not able to find

Eliza and so returned to the car, hoping to find her there. But while the rest of both groups of friends made it the car, Eliza never did.

After the riots were finished, search parties were sent to see if she was one of the deceased, but her body was not found either.

The Vitale Group is a large contributor to “Spruce up Orlando” and is offering a \$100k reward for recovery of the CEO’s missing daughter.

A police sketch was created from Vicki’s description of the man Eliza was arguing with. He is the prime suspect at this time.

ORLANDO PRIDE SOCCER GAME MARRED BY POISONINGS

The inaugural women’s soccer match was marred by an unprecedented happening.

During the match, hundreds of spectators started vomiting and passing out.

Emergency services were called and those affected were rushed to the Florida Hospital.

Tests run there showed that all victims had poison in their systems. The type of poison was

not released but we know that it was an ingestible one.

Investigations at the stadium revealed that all the beer stands on the second level were serving contaminated beer. The food stands on the first level were serving contaminated butter and cheese.

No one has been taken into custody at this time and where the contaminated food and beer

came from has not been determined.

All food vendors claim that they have not changed suppliers and that the delivery personnel were the same as usual.

Anyone who has any information regarding the poisonings or who can contribute any solid information on how the supplies were contaminated, please contact Crime-Line.

Soccer game takes unexpected turn with poisonings!

RED LIGHT DISTRICT EXPANDING

The City Beautiful has its beautiful tourist spots, its scenic picnic spots and its sweet business zones.

But as with any big city, there are the blights that no one wants to acknowledge.

Despite the efforts by our city officials and our wonderful charity groups like the Vitale Group, we continue to have problem areas.

One of those problem areas used to be limited to mainly the OBT area.

That problem is the so called "Red Light District."

The district is growing though, at a disturbing rate.

At first it was just a few street walkers being seen on International Drive, around the tourist areas.

And now reports of street walkers being seen in the suburbs are happening.

Arrests for prostitution have occurred in places such as Lake Nona, Wintermere and even Celebration! It is hard to be-

lieve that such a blight on our society would be found in some of the most prestigious neighborhoods.

If you have seen any signs of prostitution in your neighborhoods, please report such sightings to Crime-Line at once.

The police are trying to curb this growth but have so far been unable to get ahead of the spread.

Please do not approach or try to apprehend these people on your own as it may be dangerous because of their "sponsors."

**Police need your
help to stop the
spread of the Red
Light District.**
